## TO WHOM IT MAY CONCERN

It is my pleasure to write about **Dr. T. Senthil Siva Subramanian** who first came in my contact in 2015, when he invited me for an Expert talk in “*National Conference on Nanodevices-2015*” at his institute, Hindustan College of Science & Technology, Mathura (Sharda Group of Institutions). He was one of the organizers of the conference. His organizational skills at the conference were impressive.

In the first meeting, he impressed me! I found him very passionate to know more about futuristic technologies like Nano-Devices and Nano-Sensors, though he was pursuing PhD research in a different area, at IIT Delhi.

Since then, Dr Senthil is in my touch and he has been regularly updating and discussing his research activities. He has a pleasant personality; student friendly attitude and he is a good human being. I wish him very best for all his future endeavors in academics and research.
